

Bristol Hearing Loss Initiative

How to Join Our Free Community Discord | Step-by-Step Guide

Step 1: Get the App or Open the Website

Choose whatever device feels most comfortable to read: your smartphone, a tablet, or a desktop computer. Discord is completely free with zero subscription costs. You can install the free Discord app from your mobile app store or visit discord.com directly in your web browser.

Step 2: Create Your Free Account

Open Discord and select Register. Enter your email address, pick a friendly username, and set a password. Discord will send a confirmation link to your email inbox. Click that link to confirm your account.

Step 3: Accept Our Community Invite Link

Visit our permanent Bristol community link: <https://discord.gg/cWfPpaMcYT>. A prompt will appear showing the Bristol Hearing Loss Initiative server details. Click Accept Invite to enter immediately.

Step 4: Say Hello in the Welcome Room

Look at the channel list on the left side of your screen. Topics are organised like rooms in a community centre, each marked with a hash sign. Select [#welcome-and-rules](#) and post a quick hello to let us know you arrived.

Step 5: Pick Your Conversation Rooms

Browse and join topic channels based on what you want to explore:

- **#welcome-and-rules**: Server etiquette, general announcements, and area tags.
- **#bristol-venues**: Accessible cafés, pubs, quiet meeting spots, and loop quality feedback.
- **#tech-and-audiology**: Hearing aids, assistive listening devices, streamers, and NHS pathways.
- **#general-chat**: Relaxed peer discussions at your own pace with zero background noise.
